

SCOTT'S BASIC BROADCAST SPREADER

APPLICATION TIPS

- For rectangular lawns, apply two header strips at each end and then go back and forth.
- For irregular lawns, apply one header strip around the entire lawn and then go back and forth.
- For best results, do not apply products on a windy day.
- Swath width will vary due to weather conditions, product used and walking speed.

HOW TO APPLY PRODUCT

- Set rate. Find the rate setting for Scotts Broadcast Rotary Spreader or SpeedyGreen listed on the back of the Scotts product package. Turn the orange rate dial to the correct setting.
- Fill hopper. Fill over a patch of bare ground or driveway/sidewalk. Do not fill spreader on the lawn. Clean up any product that spills onto hard surfaces.
- Apply product. Begin walking and squeeze control lever. Release at end of row when you stop. Walk briskly (3 mph) making each pass 5 ft. from previous.

SPREADER MAINTENANCE

- Never leave unused product in the spreader. Pour leftover material back into the package and seal package tightly.
- Clean spreader after use to maintain proper operation. Do not allow product or rinse water to enter storm drains or sewers.
- Store in a dry, enclosed place.
